2020 BAGRATION

During the deceptively calm weeks leading up to Operation Bagration, the busy Soviets have amassed their armies for the greatest offensive yet undertaken on the Eastern Front.

Three years after the German invasion of the Soviet Union, the Red Army stands as battle-hardened troops, ready to finally push the fascist invaders out of Mother Russia!

However, the Germans have not been idle. They have spent months preparing for the inevitable assault.

A screaming barrage of shells and rockets signal the beginning of Operation Bagration, yet the German defenders hold fast under the terrorizing bombardment.

AXIS ALLIES

2021 BULGE

The Germans had been in retreat since the Allied breakout from Normandy, finally settling into defensive lines on their frontier as Autumn turned into Winter. In early December 1944 it seemed, to the Americans facing them in the Ardennes forests of Belgium and Luxembourg, unlikely that the Germans would attack.

On 16 December that illusion was shattered when the might of German Sixth Panzer Army smashed into the thinly-held US lines. The unexpected and powerful thrust overwhelmed some American units, while others fought with great determination and skill.

2022 BERLIN

The Battle of Berlin was, like any battle, one fought by individual soldiers, often in very close quarters. The Soviet infantry and tankers faced everything from grizzled panzer commanders to the old men and boys of the Volkssturm as Germany fought desperately to save their city and nation from final defeat.
