

DYNAMIC POINTS FOR MID-WAR 2024

Last year we unveiled the concept of Dynamic Points for Mid War. This gave us a chance to review the points as they stood in the books, look for areas where there was room for improvement, and them put them on *Forces Of War* as an optional set of adjusted points.

This means that players that had existing books and unit cards were able to continue using the product without any complications, whilst players that thought a unit was over (or under) pointed would have a chance to play with these dynamic points with the least amount of fuss.

In Forces Of War, our on-line army builder, we added an option in the account page where you could switch between Book Points and Dynamic Points so that changes could be quickly assessed.

Overall, we felt that the changes worked well and were widely used, particularly at tournaments. There were however some areas that either did not work out as we expected.

With the 2024 Dynamic Points there are a few areas we have chosen to focus on:

- Light Tanks and Armoured Cars,
- Medium Tanks are still looking too expensive and, for certain nations, paying a premium for rules that do not have as big an impact as expected,
- Anti-tank Guns,
- Soviet 4+ Save infantry, which was a popular request from players around the world.

There are other units that have been affected because of these change, and you can find more information in the following pages. Overall, these changes won't change the balance of the game — it's well balanced at the moment, but you will see a change in the composition of the forces turning up at some games. The vast majority of forces you can build will be largely unchanged. For veteran Mid-War players, these changes should make for some refreshing new challenges

These changes replace the 2023 version – if there is a unit that was included in the previous version of Dynamic Points that is not there now, then that unit has ended up reverting to its points in the appropriate book. Likewise once Forces Of War is updated any saved lists will then reflect the updated 2024, not 2023, points

20 December 2023

CHANGED FORMATIONS AND UNITS
