

# SU-76 LIGHT SP REGIMENT

*An SU-76 self-propelled artillery regiment gave the brigades of a rifle or tank corps light artillery support capable of keeping up with their advances. The regiment could be brought together as a single force to ensure a breakthrough when needed.*

Your Force includes an SU-76 Light SP Regiment, which is a Formation containing:

- 1 HQ Unit of 1x T-70 tank from (MS142) for 2 points
- 2-4 SU-76 Light SP Battery (MS158)

**Soviet, Build,  
Formation, Limited**

**0  
POINTS**

# MIXED SP REGIMENT

*The first self-propelled artillery regiments contained both light SU-76 and medium SU-122 SP guns. This allowed a corps to be assigned a single regiment, yet still get the advantage of both types of guns.*

Your Force includes a Mixed SP Regiment, which is a Formation containing:

- 1 HQ Unit of 1x SU-76 SP gun from (MS158) for 4 points
- 1-4 SU-76 Light SP Battery (MS158)
- 1-2 SU-122 Medium SP Battery (MS159)
