TANK ACES TACTICAL EDGE

In Tank Aces, the *Tactical Edge Tokens* act as special objectives that award players with small bonuses for whoever gets to them first. They can be used to give yourself a boost or make your opponent have to try something again.

There are six different Tactical Edges, each represented by a *Tactical Edge Token* as seen on this page. To use these *Tactical Edge Tokens*; simply cut out each token, fold in half and fasten together using a glue stick.

For more information on how to use *Tactical Edge Tokens* in Flames Of War, see page 107 of the Tank Aces section in Blood, Guts, & Glory.
